- Passengers who have purchased paid seat selection may only use this right on that particular flight and in their own name. A passenger may not transfer this right to another passenger or flight.

Emergency exit seats

- In emergency situations, passengers traveling in emergency exit seats are expected to assist with the opening of the emergency exit doors during evacuation. As such, passengers must be adults (18 years and over), in good health, and able to understand written or spoken instructions in either Turkish or English. Passengers must be willing to assist as far as is possible during emergency evacuations. Passengers requesting emergency exit seats must confirm they are eligible when making their request.

- If a passenger cancels their paid seat no refund will be issued.
- Refunds must be requested within 1 year of the flight.
- If a passenger changes their seat for a cheaper or more expensive seat, the passenger will pay the fee for the new seat selection and any previous payments will not be refunded.
- If a passenger is dissatisfied with an involuntary seat change implemented before take-off, they may apply to our call center or sales offices to request a refund for the journey.
- The amount that you paid for seat reservation will be automatically refunded to the credit card you paid from, in the case of flight cancellation or forced replacement of your seat by Turkish Airlines due to unexpected compulsory reasons.
